I don't know if you listened to the meeting today. I had to leave before it was over. However, I did hear the discussion regarding the pool room.

There were 123 responses to the questionnaire, and I need to know how many members total there are in Suissevale.

The majority actually voted against taking down the building and making a pavilion. Here is how I see it: three of the categories voted on were for keeping it as a closed building (windows, doors, etc.) and the fourth category was the open pavilion. So if you add up the first three choices in the survey, it surpasses the fourth, which is tearing down the building.

However, they are going ahead with hiring an engineer to make the plan to tear it down. This will make a place which will only be available in the warmer months, and absolutely unusable in the winter months. How do we get our views to the BOD?

Anne Marie Bedford, Suissevale Owner
